

Warranty Extension for Rugby 320 / 410 / 420, Piper 100 / 200 products

Terms and conditions

By buying Extended Warranty, the original standard 2-year warranty of the product is extended by the number of additional years requested. For more information on the scope of the original warranty, please refer to the Standard Leica Geosystems International Limited Warranty that can be downloaded from the Leica Geosystems web site under www.leica-geosystems.com/internationalwarranty/

Pursuant to the terms and conditions set out in the Leica Geosystems International Limited Warranty, the Extended Warranty includes, without limitation, free of charge the following items:

- At the option of Leica Geosystems, repair or replacement of the faulty product or parts thereof, or refund of the purchase price paid for the product
- System test for resuming the operations with product
- Labor costs (excluding travel expenses)
- Freight charges for outbound shipment of the product

The following items are expressly excluded from Extended Warranty:

- Damage as a consequence of the instrument falling on the ground or other impacts
- Wear & tear related to usage of instrument
- Third party products sold by Leica Geosystems
- Non-durables (including batteries)
- Accessories (including, without limitations, cables, fasteners, chargers and tripods)

Any time during the warranty period, the warranty can be extended by buying a warranty extension. Extending the warranty is only possible during a current warranty period. After the lapsing of the warranty period, no extension is possible. The maximum warranty period including extensions is limited to 5 (five) years as of date of purchase of the product.

For any further questions as to the warranty cover, please refer to the sales person or company that sold the product.
